- FOR IMMEDIATE RELEASE -

Functional Products, Inc. had nominated **Ivanhoe Industries, Inc.** to be its exclusive representative in the Northeast region. Ivanhoe will stock product in its Tullytown, PA warehouse to service existing and new customers in the lubricant industry.

Founded in 1985, Functional Products, Inc. of Macedonia, Ohio is a technically driven firm that formulates and blends innovative lubricant additives for mineral and vegetable-based fluids by drawing upon its extensive knowledge of polymeric chemistry. Functional Products Inc. formulates, blends, and sells oil additive products that manage viscosity and improve the performance of oil, grease and biobased fluids that operate under demanding conditions. The Company offers an extensive range of viscosity modifiers, tackifiers, way lube packages, grease additives, biobased products and other oil packages. Functional Products, Inc. is ISO 9001:2008 with design certified, and its products are REACH compliant.

Founded in 1983, Ivanhoe Industries, Inc. is a privately-held distributor of specialty and intermediate chemicals. The company is based in Tullytown PA and serves a variety of markets and customers throughout the NAFTA region with imported and domestic products. Key markets include lubricants, paints coatings and adhesives, resin intermediates and additives and personal care.
