**FOR IMMEDIATE RELEASE:**

Ivanhoe Industries Inc. (Tullytown PA) has received HX-1 certification from NSF International for the company's IvanGuard® brand of disodium sebacate products. IvanGuard® DSS is a granular 140 mesh material while IvanGuard® DSS Micronized is milled to 90% less than 10 microns. Both products are suitable for use as solid corrosion inhibitors at up to 2% in greases for incidental food contact applications.

IvanGuard® DSS – Registration number 147952  
IvanGuard® DSS Micronized – Registration Number 147953
